WWW.ROYALCUPCOFFEE.COM

Birmingham residents in the late 1800's were drawn to the streets by the aroma of fresh coffee beans as our founder, Henry T. Batterton, made his rounds selling coffee from his horse drawn wagon. Batterton Coffee was so fresh, so flavorful; that it was deemed fit for royalty and became known as the "Royal Cup of Coffee". In 1950, the William E. Smith family of Birmingham took ownership of the company and renamed it Royal Cup Coffee. In 1958, Royal Cup's first coffee route was established to provide service to restaurants and hotels. The Office Beverage Division began in 1968.

Royal Cup continues as a privately held, family-owned company, carrying on the reputation for providing exceptional products. Over the past 100 years, Royal Cup has grown from its small, hometown roots to become a major importer, roaster and distributor of premium coffees and teas. Royal Cup now reaches markets throughout the United States, into Mexico, and the Caribbean. Our Office Beverage Division is recognized as the leader for quality and personable service in the industry.

The strong relationships and service-oriented values implemented with Royal Cup's first route are the same qualities that contribute to our successes today.

Royal Cup Coffee has the understanding and capability to create your complete Office Beverage solution. ROYAL CUP ICED TEAS

Tea leaves grown specifically for iced tea providing a naturally sweet flavor. A blend of China Black tea and other specialty teas brings out a rich amber, non-cloudy color, and extraordinary body.

IBIS MOON ICED TEA

Cool, dark, and delightful, like the walk of a wading ibis through a still pond at night, Ibis Moon is a gratifying blend of premium teas. It owes its deep color, its clarity when poured over ice, and the roundness of its flavor to aromatic black leaves grown in the Hunan province of China. Delicate leaves from high on the islands of Sumatra and Java impart flowery highlights. And from Malawi, a small East African country, come tea leaves that bring deep fire to its color and bright fancy to its taste.

Sustainable Products are those products providing environmental, social, and economic benefits while protecting public health, welfare, and the environment over their full commercial cycle, from the extraction of raw materials to final disposition.

Royal Cup, Inc. has partnered with the Rainforest Alliance to offer high quality certified sustainable coffee while helping to conserve the rainforest, protect wildlife, and sustain farming communities. Royal Cup has added Rainforest Alliance Certified™ coffees to our legendary Villa Rey line.

Ask your Royal Cup Representative for our complete line of Green products and Sustainable Coffees. We will be happy to provide literature, samples, and ideas on how to become a "greener" facility.
